Print the number of elements in **numbers** and **triplets**.

```csharp
List<int> numbers = new List<int> { 3, 6, 9, 17, 21 };

Console.WriteLine(numbers. [ Count ] );

var triplets = numbers.Where(x => x % 3 == 0);

Console.WriteLine(triplets. [ Count() ] );
```

👏 You got it!   Continue
